- Conducted a research on social capital and quality of work life among north khorasan payame noor university personnel (completed in 2017)

Supervising community based prevention of suicide in North khorasan Province

The first Phase of this project is finished. In this step we identified the main target groups in the province. Then i have trained the facilitators in two levels. first of all i have trained some educated facilitators who were in contact with the local people due to their previous assignments. Then i have supervised and watched them to train the local facilitators who were in contact with people who attempted the suicide or people who are at risk of suicide. Prior to intervene in the field i have defined strategies and approaches based on existing data and current situation in the local context.
